**Area: Advanced Materials for Energy**

**Area leader: Prof. Joan Ramon Morante**

**Group: Energy Storage, Harvesting and Catalysis**

**Group leader: Prof. Joan Ramon Morante**

**Title:** Expressions of Interest for Beatriu de Pinós Proposals in Energy Storage, Energy Harvesting and Catalysis Group

### **Job Description**

IREC, in Barcelona, Spain, is interested in receiving Expressions of Interest of potential candidates for the Beatriu de Pinós call (AGAUR, Generalitat de Catalunya).

The Catalonia Institute for Energy Research (IREC) is a Catalan public research institution, recognized as CERCA research centre and accredited as TECNIO technology provider, created in 2009 based in Barcelona and Tarragona that conducts innovative research and innovation over a wide range of disciplines within the science and technology energy field. IREC contributes to sustainable development via development of new technological solutions, promotion of scientific and technological know-how related to clean energy and its efficient use as well transfer of solution and expertise to market actors. Activities include regional, national and international projects as well as direct cooperation with leading industrial partners. The institute also supports the promotion of renewable energy technologies and assists political decision-makers. IREC is part of national and international associations and platforms, and has a strong participation in H2020 and HE, as well as national, projects, with a portfolio of more than 7M€.

The **Energy Storage and Energy Harvesting** group, part of the Advanced Materials for Energy area, led by Prof. Joan Ramon Morante has a strong background and expertise on: electrode material synthesis and processing; reactor implementations; electrochemical, catalyst and electronic skills as well as large capacity for advanced characterization, laboratory and field testing; performance system assessments and system integration according to the application, covering chemical and electrochemical energy storage.

We're looking for potential candidates in the following areas:

- Photo- and electro-catalysis
- Carbon capture and utilisation
- Synthetic fuels and chemicals

### **Qualifications and experience required:**

- PhD in Materials Science, Chemistry or related field
- Team Worker
- Flexibility
- Results-oriented
- Analytical and synthesis capabilities

### **Benefits**

The annual budget includes funding for salary plus research expenses. The salary will be in accordance with the Beatriu de Pinós call.

Fellows will be based at the IREC headquarters in Barcelona.

### **Eligibility criteria:**

According to the Beatriu de Pinós call, the fellows must:

- Have got their PhD between 01/01/2014 and 31/12/2019.
- Have two years of postdoctoral experience outside Spain.
- Not have resided or carried out their main activity (work, studies, etc.) in Spain for more than 12 months in the last three years.

### **Application:**

Researchers willing to apply should check that they meet the eligibility requirements and send the expression of interest, including:

- Their CV
- A motivation letter
- A summary of their research proposal

Expressions of interest should be sent by email directly to the KTT Office ([ktt@irec.cat](mailto:ktt@irec.cat)) indicating “Call for Expressions of Interest for for Beatriu de Pinós Proposals in the Energy Storage, Energy Harvesting and Catalysis” in the subject.

---

Nr of positions available: 1

### **Research Fields**

Shaping Energy for a Sustainable Future

- ✓ Electrocatalysis
- ✓ Carbon capture and utilization
- ✓ Synthetic fuels and chemicals
