Capacity to work in a team, flexible, service oriented with initiative and problem solving skills would be valuable. High level of communication and negotiation skills are mandatory.

Requirements:

Essential:

- University Degree in Science, Engineering or Technology
- Master in Scientific Communication or similar
- Proven experience in scientific communication in research institutions.
- Proven experience in organization of scientific dissemination activities.
- Knowledge and/or experience on renewable energies, smart grids, energy efficiency and energy sector
- High proficiency in English language
- High proficiency in MS Office tools and edition and design tools (CANVA, etc.)

Advantageous:

- PhD in Energy related fields (renewable energy, energy efficiency)
- Proven experience in social media management
- Proven experience in video scripting and editing
- Proven experience in coordination of outreach activities (also in coordination with public institutions)

Personal Skills:

- Self-motivated and open-minded
- Good communication skills
- Team Worker.
- Results-oriented.
- Analytical and synthesis capabilities.
- Negotiation skills

Salary:

Salaries will be paid in accordance with the IREC's salary policy, depending on the candidate's qualification and professional experience.
