

GENERAL REGULATION FOR FLOATING OFFSHORE WIND TURBINE PROTOTYPE TESTING AT THE PLEMCAT PLATFORM

The document presented herein has been composed in accordance with the agreements and mandates established during the Board meetings of the IREC Foundation on the 15th of June and the 8th of September 2023. Additionally, it includes the decisions made by the PLEMCAT Commission. It is important to note that this document will be submitted for ratification by the Board of the IREC Foundation at its next regular meeting, and its approval is contingent upon this ratification.

The aim of this document is to define the overarching regulation that will govern the testing of prototypes within the Marine Energy R&D Platform of Catalonia (known as the PLEMCAT Platform or simply PLEMCAT). This regulation will apply to operators who are awarded a specific testing zone and an electrical grid connection point, in line with the final resolution of the call for prototype testing at PLEMCAT, which can be consulted on this very website.
