

RESOLUTION OF THE FINAL CALL FOR FLOATING WIND TURBINE PROTOTYPE TESTING ON THE PLEMCAT PLATFORM

In line with the stipulations of the Provisional Resolution of the Final Call for Floating Offshore Wind Turbine Prototype Testing at the PLEMCAT Platform, released by IREC on 22nd September 2023, a designated period was set for the submission of representations, commencing the day following its publication on the IREC website and concluding at 14:00 on 29th September 2023.

Upon the closure of the representation submission period, having duly processed its resolution and in adherence to the tight schedule for the acceptance or declination of the grants from the "RENMARINAS DEMOS" call across all its sub-programmes and modalities, IREC hereby publishes this Final Resolution of the Final Call for Prototype Testing on PLEMCAT. This has been issued by the PLEMCAT Commission, detailing the definitive order of precedence for the proposals, including the final assignment of a testing zone and connection point in phase 1 of PLEMCAT, as well as the proposals that remain on the waiting list.

The order of precedence is structured as follows:

| Registration /Submit reference | Score |
|--------------------------------|--------|
| Submit Reference 4 | 204,4 |
| Submit reference: 10/2 | 199,92 |
| Submit reference: 8 | 191,4 |
| Submit reference: 9 | 188,4 |
| Submit reference: 6 | 135 |
| Submit reference: 7 | 116 |

This resolution will be communicated to the successful companies ranked in the top 3 positions (Submit References: 4, 10/2, and 8). They are required, by **no later than 14:00 on the working day subsequent to the date of this award resolution's publication (i.e., by 14:00 on Monday, 2nd October 2023)**, to notify IREC of their acceptance of the proposed award and their intention to commence procedures for the formalisation of the contract, outlining the terms and conditions applicable for the use of the PLEMCAT Platform.

Should IREC not receive confirmation of the award acceptance from any of the successful companies within the stipulated timeframe, it will be inferred that they have declined the award. In such an event, or in the instance of a declination, IREC will notify the next ranked company in accordance with the order of precedence specified in this Resolution, allowing them a designated period to express their acceptance.
